

# Materials list for Cliff Miller's oil painting workshop

## **Paint**

Lamp black

Lg. Titanium white ( 200ml)

Any oil paint you already have you can use for class.

**Brushes** – I suggest that you buy a variety of flats from a #2-4-6-8-10-12.

Dick Blick has a brand called Scholastic (wonder white) Student grade reasonably priced and great for class. Any comparable synthetic white sable should be fine.

Also a 0 round and a 000 round for detail.

And a brush larger than the #12 flat for blocking in backgrounds.

**Turpanoid** - odorless turpentine ( The best value is to buy a gallon and look for the 40% or 50% off 1 item coupon at AC Moore or Michaels.)

**Liquin original** ( Winsor Newton)- (at least 8.4 fl.oz or larger)

**Palette knife** - (Liquitex # 10 or 11) or any metal blade palette Knife.

**Glass palette** – Blick has both oval and rectangular.

**Vice grip** – You can buy this at any hardware store, this is for holding your razor while you scrape off your palette. ( A medium sized vice grip will do fine)

**Straight edge razor blades**

**Silicoil** – This is a capped glass jar with a metal coil inside for cleaning brushes.

**Art box - ( optional)** – Any paint box will do to carry your materials. Riebe's art store on 110 in Melville carries a really nice wooden paint box that will hold a glass palette. The brand is Jack Richesson.

**Mahl stick** -( A pole to rest your arm when painting detail) any dowel or broom handle will work fine - 30" to 40".

**Rags** – for cleaning brushes.

**Canvas** – Stretched canvas 12x16 – No canvas boards please.

**2- Glass jars with screw caps** - Salsa jars are good.
