### Sculptural Jewelry/3D Wax Carving (Class 3045)

#### Supply List

**Matt Purple Wax** - buy one box. This color wax is the best for sculptural carving and detailing. This product comes in several ways depending on what you want to make.

**Wax Sheets** for making bracelet links, earrings, or small sculptures.

**\*Wax Block** for making anything.

**Wax Ring tubes for rings.**

\*Decide what your first project will be and get the size needed. I would recommend block to do several projects but it will take a bit more work to cut the pieces out of it.

**Files** Please bring in what you have.

**Doubleend vulcanite wax carving file.** (you will need this)

**Wood rasp for certain projects.**

**100-220 Sandpaper and fine steel wool** one piece each.

**Brass Brush** for cleaning wax out of files or a card file.

**Tooth brush used ok.**

**Exacto knife with blade.**

**Coping saw**

**Slide ruler**

**Divider**

**Punch or soldering pick**

**Tracing paper** small amount for your design. If possible draw your first design on tracing paper to start in class. I suggest a small ring design or pendant.

**Pencil**

I suggest going to Zak Jewelry Tools in NYC for your supplies. The phone # is 1-800-369-6424, [www.zaktools.com](http://www.zaktools.com). Rio Grande is another site 1-800-545-6566, [www.riogrande.com](http://www.riogrande.com).
